Dear Hiring Manager,

My name is Ravi Silva, and I am a **Software Quality Assurance Analyst** with **3 years and 4 months** of experience in technology, nearly 3 of them dedicated to software quality and testing. I have a **degree** in **Systems Analysis and Development**, as well as two **postgraduate specializations** — **Software Engineering (Quality & Testing)** and **Frontend Development.**

My professional background covers **manual and automated testing**, with experience in tools such as **Selenium WebDriver (C#), Cypress (JavaScript), Postman for API testing, and SQL** for database validation. I am also familiar with agile methodologies (Scrum, Kanban) and collaboration tools such as **Jira and Azure DevOps**, which gave me a strong understanding of the entire software development lifecycle and the role of quality assurance in delivering robust, reliable, and user-focused products.

Alongside my technical career, I have been consistently investing in my **English skills**. Over the past two years, I have taken **3 to 5 weekly conversation classes with native teachers**, and in **September 2025** I will start a **long-term English program in Ireland**. This exchange is both a professional and personal goal, as I see fluency in English as a key skill to expand my career into international markets.

Although I am currently based in Brazil, I will relocate to Ireland on **September 25th, 2025**. Until then, **I am fully open to online interviews and recruitment processes**, so that I can be considered in advance for opportunities in Ireland. From my arrival date, I will be available to start **working onsite, hybrid, or remote**, depending on the role.

I am detail-oriented, organized, and committed to continuous improvement, always eager to learn and contribute to collaborative environments. I would be glad to discuss how my background and skills can add value to your team.

Thank you for your time and consideration. I look forward to the opportunity to contribute.

Sincerely,
Ravi Silva
